

CLIFFORD WROBEH

Electrical Engineering Student | Temple University

Darby, PA | 267-721-7466 | cliffordwrobeh18@gmail.com | github.com/cliffordwrobeh18-ctrl

EDUCATION

Temple University, College of Engineering | Philadelphia, PA

Bachelor of Science in Electrical Engineering | **Expected Dec 2027**

TECHNICAL SKILLS

Programming & Data: Python, NumPy, Matplotlib, Microsoft Excel

Engineering & Design: SolidWorks/Onshape, CAD, engineering data analysis, technical documentation

Electrical: AC/DC circuit fundamentals, multimeter use, introductory power systems and transformers

ENGINEERING PROJECTS

Wind Turbine Site Analysis | ENGR 1102 | Spring 2026

- Used Python and real weather data to estimate wind-turbine power and annual energy production.
- Compared Concord, CA, Sioux Falls, SD, and Midland, TX using energy production, transmission losses, profitability, and breakeven time.
- Applied engineering equations for air density, hub-height wind speed, turbine power, and operating limits; visualized results with Matplotlib.

Petri Dish Holder Design Project | 2025

- Designed and modeled a custom petri-dish holder using CAD while working within project dimensions and design constraints.
- Integrated the mechanical design with a micro:bit and vibrating motor as part of a prototype system.

PROFESSIONAL EXPERIENCE

Melmark | Newtown, PA

Direct Support Professional | Dec 2024 - Jul 2026

- Supported individuals with daily living activities while following care plans, safety procedures, and documentation requirements.
- Worked with clinical and support teams, strengthening communication, attention to detail, and responsibility in a structured environment.

Devereux Advanced Behavioral Health | Berwyn, PA

Direct Support Professional (PRN) | Jan 2022 - Jun 2024

- Provided direct support across variable shifts and documented observations while communicating concerns to team members.

Royer-Greaves School for Blind | Chichester, PA

Direct Support Professional | Jan 2023 - Aug 2023

- Provided daily living assistance and coordinated with staff to support continuity of care.

Adecco | Pennsylvania

Application Processor & Material Distributor | 2018 - 2020

- Processed materials and supported distribution workflows in a fast-paced environment with an emphasis on accuracy and organization.
